

## Call for a New Group Leader in Virology at the CIRI

The **CIRI, Centre International de Recherche en Infectiologie** (<https://ciri.ens-lyon.fr>), is a public research institute in Lyon, one of the most dynamic capital cities in France and a gateway to the Alps. The CIRI brings together more than 380 collaborators and 26 teams in the Divisions of Virology, Bacteriology and Immunology.

The Virology Division is composed of 13 research groups that study a broad spectrum of viral pathogens, encompassing emerging and highly pathogenic viruses as well as acute/chronic ones (Ebola, Nipah, Arenaviruses, Crimean-Congo Fever, Zika, Dengue, Hepatitis viruses, HIV, Influenza virus, EBV, HTLV etc). Different approaches are used that encompass fundamental cellular biology, the development/use of appropriate animal models and organoids, the study of the physiopathology and clinical dimensions of infection to translational approaches in drug development and vaccine design.

**We are seeking for an outstanding group leader in Virology focused on the study of BSL4-class viruses.** The new team leader is expected to develop their independent line of research, while implementing complementary synergies with other groups at the CIRI.

The selected candidate will benefit from office and laboratory space, as well as access to on-site state-of-the-art core facilities (BSL4 core facility, imaging, flow cytometry, etc <https://www.sfr-biosciences.fr/>).

The CIRI is committed to equal opportunities and is particularly interested in receiving applications from diverse scientists for this group leader position. Applicants can be of any nationality.

Particular attention will be paid to candidates eligible for start-up programs such as ERC Starting/Consolidator Grant, ATIP-Avenir, or equivalent. Support will be provided to obtain research funding. Depending on the amount of secured funding, the selected candidate(s) will be allocated additional resources to facilitate integration.

Applications in English should include a CV (2 pages), a short description of achievements and records of self-financing (2 pages), a full research project (6 pages) plus the names and contact information of 3 referees. Application material should be sent as a single pdf to: [andrea.cimarelli@ens-lyon.fr](mailto:andrea.cimarelli@ens-lyon.fr) and [directeur.ciri@inserm.fr](mailto:directeur.ciri@inserm.fr)

**DEADLINE FOR APPLICATIONS:** March 31st 2023.

Short-listed candidates will be invited for an on-site visit and interview. The position is expected to start within the year 2024.
